## THREE MORE SHIPS TO BE BUILT HERE

Kingston Shipbuilding Corporation Receives Contract to build Additional Vessels--Men's Pay Increased--Catskill Soon to Be Launched.

The Kingston Shipbuilding Corporation has received an additional contract from the Emergency Fleet Corporation to build three more big ships at the Island Dock shipyards, making seven in all to be built at the yard for the Merchant Marine.

These additional ships are to be of the Ferris type, the same as those under construction. The corporation's original contract was for the construction of four ships.

The Esopus, which was recently launched from the ways at the yard, is rapidly nearing completion.

The Catskill, now on the ways, will probably be ready to be launched in two weeks, and two other ships are also under construction at the present time at the yard.

With the additional contract for three more ships it means that the yard will be busy for some time to come.

The Shipbuilding Labor Adjustment Board has notified the corporation of an increase in pay for the men of approximately 13 per cent dating back to October 1.

## CRISIS PREVENTS WILSON VOTING

Keen Interest in National Capital. As Ballotting Goes on to Determine Make-up of Congress.

By Telegram to The Freeman.

Washington, Nov. 5.—Most intense interest was manifested here today in the result of the election throughout the country. The control of the senate and house was at stake from the national viewpoint while in certain of the states the issues involved were believed to reflect problems that will have a direct bearing on the presidential campaign of two years hence.

For the first time since he entered public life President Wilson failed to go home to vote. He stayed in Washington as the direct request of the state department which felt that the big crisis in the peace situation with Germany was at hand and did not want to take chances of being unable to reach him if any emergency arose.

The chief factors in today's election were:

Selection of the entire 435 members of the 66th congress, whose terms commence on March 4 next; and selection of members to fill vacancies in six districts in Maryland, Missouri, New Jersey, Ohio and Wisconsin (2); selection of United States senators in thirty-three states; selection of governors in thirty-one states, including all of the big states of the union.

Voting on the question of woman's suffrage in Oklahoma, Michigan and Louisiana.

## CLUSTER SOCIETY TO MEET

Organization Has Grown From 15 to 556 Members.

The members of the Ulster County Society will hold their third annual meeting in the Hotel Woodstock, New York city, November 14th. The following letter, being sent to members by Joseph Drake, secretary, recounts the success which has attended the organization since its inception two years ago:

Dear Sir—

The third annual meeting of our society will be held in the Hotel Woodstock on Thursday, November 14, at 8:15 o'clock.

Two years ago, on November 15, 1916, we organized with fourteen members. At that time our membership was 356, which speaks mightily well for the interest shown by the members.

Since our first meeting we have held two banquets, one in the Hotel Manhattan, the other in the Elmtown, and an outing to the old home county, which took place on September 21. Our affairs have been successful and have shown what the Sons of Old Ulster can do when they get together.

We will have to transact considerable business at our meeting in the Woodstock, and as you may take part in the election of officers for the coming year, matters pertaining to the holding of our annual banquet in February, whether or not the annual dues shall be increased to two dollars, and if the outing we held this year to the old home county shall be made an annual affair will be discussed. These are subjects for the members to think over, and if it happens that you cannot attend, a letter expressing your views, if sent, will be read by the secretary.

C. & B. Improvements.

SOLDIERS' XMAS PACKAGES.

Correct Instructions As To Method Of Sending.

In order that there may be no mistakes about the Christmas packages to be sent to our fighting men, as to their being sent and received, the Atlantic Division of the Red Cross again sends out this warning as to how these packages shall be sent, and the instructions must be absolutely followed or some of our men will have anything but a Merry Christmas.

The original official label as it is printed and has been sent out to the persons entitled to send packages to the fighting men, stated, "This Coupon is authority for any post office to accept on or before November 26th, 1918, a Christmas package conforming to the above regulations for the soldiers named here on." This part of the directions on the label is not to be followed, in its true meaning, in the following directions must be followed:

"After the cartons have been filled by the persons who receive them, they shall be returned to a Red Cross receiving station where inspectors appointed by the Red Cross will carefully examine each parcel and supervise its wrappings and the affixing of the 'Christmas parcel label' and the necessary postage stamps; the latter to be furnished by the sender of the parcel."

When the parcels have thus been packed and wrapped and otherwise prepared for transmission, the Red Cross will affix to each a certificate in the form of a seal showing that the parcel has been inspected and contains no prohibited or unavailable matter."

## RED CROSS OUT OF WAR CHEST DRIVE

In Accordance With Own Request Cunningham and Brockman to Address Meetings Friday. Workers Day Key-note Meeting at High School.

The first great public demonstration of the Ulster County War Chest Campaign will occur at the High School Auditorium at 8 o'clock, Friday night, when Associate Secretary Fletcher Brockman of the National War Work Council, Y. M. C. A., will address a mass meeting at which the Knights of Columbus, Jewish Welfare Board, War Camp Community Service, Y. M. C. A., Y. W. C. A., American Library Association and Salvation Army will be represented. This meeting is to strike the key-note of the Ulster County War Chest Campaign, the cooperation of all our people to back our soldiers and sailors in winning the war and to provide for their comfort and happiness during the long period of demobilization after peace comes.

Friday evening at six o'clock all of the 300 workers in the city of Kingston, who have promised to get out and hustle in the campaign next week, will come together for a dinner meeting at the Y. M. C. A.

Judge Wm. D. Cunningham of Ellenville has consented to speak at the noon and evening meetings Friday.

Judge Cunningham's reputation as an orator and as a citizen well qualified to sound the call to arouse the fighting spirit of Ulster county and is sufficient to guarantee for the success of both these meetings.

The War Chest Campaign Committee this morning reached a definite decision to accept the request of the War Work Council of the American Red Cross, that the American Red Cross be included in next week's drive. The War Chest quotas for Ulster County and for Kingston have been modified in accordance with this decision. It will now take only \$200,000 to fill the County War Chest, and Kingston will go "over the top" when it reaches its new quota figures of \$150,000.

The decision that the Red Cross is not to be included was reached reluctantly on the part of both the War Council of the American Red Cross and the Directors of the Ulster County War Chest Association. It was made in view of the National problem which makes it advisable that the American Red Cross and the Ulster County War Chest shall have one full and separate week in which to present their needs.

The Ulster County War Chest will now include the Ulster War Work Campaign, and the local war welfare and social welfare agencies. There will be no other appeals for funds in Ulster County within the next year except for the American Red Cross, for membership campaigns, and investment campaigns, such as the Liberty Loan and War Savings Stamps.

## ITALIANS HAVE 500,000 CAPTIVES

By Telegram to The Freeman.

Washington, Nov. 5.—Austrian prisoners captured in the great Italian drive numbered 500,000, according to latest calculations, said a dispatch from Rome to the Italian embassy this afternoon.

The booty amounts to several billion lire in value. It includes 250,000 horses. In the army of the Trentino alone more than 150,000 prisoners were taken. The dispatch adds that with the occupation of Trieste by the Italians the enthusiasm of the people reached a state of delirium. Great activities are taking place in the harbor. A number of ships, including the cruiser Novra, were abandoned in the port, because they were damaged.

## FOCH WILL PRESENT TERMS TO GERMANY

Suspension of Hostilities and Guarantees Similar to Those Exacted From Austria to Be Left Strictly in Hands of Military--Enemy to Know Terms By Wednesday--German Military Situation Desperate.

By Telegram to The Freeman.

Washington, Nov. 5.—The Allied armistice terms will be presented to the German high command through Field Marshal Ferdinand Foch in the field. They will not go forward through President Wilson.

This was authoritatively learned today. There are two reasons for this action. First, the United States no longer has any definite line on exactly who now are the real rulers of Germany. The second is that the terms of necessity affect the German military organization. Consequently they should be initiated by the generalissimo of the Allied forces.

Officials here today would not discuss the terms other than to say that they could easily be constructed through comparison of the German military situation with that which existed in Austria when the latter's armistice terms were framed.

It is assumed that the terms were sent forward from Versailles yesterday as soon as they were signed by the members of the supreme war council.

General Foch is supposed to have taken immediate steps to forward them to German general headquarters, and the Kaiser was last heard from. There was a strong possibility that the terms would be in the hands of the German commanders today, or in any event, not later than tomorrow.

Just how soon the Allied armistice terms will be made public is not known. It is assumed that the German command would be given an opportunity to study them before they are announced to the world.

Army officers here were very frankly hoping that General Foch would be in no hurry to present the armistice terms. They declare that an inspection of the map will show that a German military catastrophe on the western front cannot be very long delayed. They say that if the Allied forces can continue their present speed the main outlets through which the German army had expected to retreat will be entirely closed within forty-eight hours.

Military men explained that there were two methods, direct or diplomatic through which General Foch will act. The first is the direct one. If it was chosen the general would send forward the terms of the supreme council accompanied by a flag of truce to that part of the German line where he knows a responsible command is and there deliver the terms. The diplomatic method would

## 21 NEW CASES OF "FLU" ON MONDAY

During the Month of October There Were 7,767 Cases Reported—Most of Them Have Recovered Since Then.

Twenty-one new cases of influenza and pneumonia were reported to the health board on Monday. During the month of October there were 7,767 cases reported. The majority of these cases have since recovered.

While the epidemic seems to be waning, the number of new cases reported each day is averaging about fifteen, which shows that it has been far from wiped out.

The city ambulance spent a quiet day Monday and responded to no ambulance calls.

The death toll from the epidemic also seems to be dropping off, judging from the number of deaths reported in the death column.

The health board holds a special meeting Wednesday to decide what action shall be taken toward lifting the ban.

## REPORT OF ARMORY HOSPITAL KITCHEN

Credit Due Those Who Generously Gave Services, Food and Other Articles in Emergency.

When the article concerning the Emergency Hospital was printed last Wednesday, Miss Davis, who had charge of the kitchen, was out of town, so she could not be interviewed.

Since she has returned, we are glad to publish additional data.

The response to the request for help was most cheerfully met. Special mention should be made of the efficient service which Miss Edith Scott, one of the high school teachers, rendered. She was on duty every day and was in charge during Miss Davis's rest hours. The following teachers also assisted: Mrs. Ross K. W. Whittier, Miss Helen Bronson, Miss Carolyn E. Arnold, Miss Katherine Kelly and Miss Ethel Hull. There were other volunteers, whose services were indispensable. Among these women who had their own homes to care for, but who gave as much time to hospital work as they could spare from home duties. These were: Mrs. F. E. Slawson, Miss Lillian M. Healey, Miss Lillian M. Stuart, Miss Elizabeth Scott, Miss Alice H. Scott, Mrs. Alden C. Gates, Miss Margaret Merritt, Mrs. Paula Smith, Miss Ella H. Moore, Miss Helen Atkins, Miss Nellie Van Slyke and Miss Eliza Towell. Six high school girls acted as waitresses: Misses Elizabeth Kingman, Margaret Mosker, Marion Kingman, Ella Klein, Polly Bruyn and Frances Brink. Frank McKown assisted with the marketing.

The mess hall of the armory was used as dining room for the doctors and nurses. It was not necessary to purchase any china for table service as the armory is well provided and generously allowed the hospital to use all of their equipment.

Capt. Fowler was untiring in his service and Sergeants Fitzgerald, Halloway, Mullen and Cook Davis, men in charge of the armory, were always cheerfully ready when needed and did splendid work in a thorough, efficient manner.

The kitchen of the armory was equipped with a gas range and some utensils. Other utensils were borrowed from the Kingston high school and a small quantity was purchased.

The doctors in charge credit the excellent food served as one of the reasons why so many patients recovered and so few nurses and helpers became ill. Miss Davis said this could not have been accomplished had it not been for the wonderful donations of food.

Patients were provided with unlimited amounts of orangeade made from oranges, which were gifts to the hospital. One woman gave a whole crate of oranges, two others a half crate, others five dollars worth. Broth made outside and sent to the hospital was excellent and unlimited. Mrs. John D. Schoonmaker was of great assistance in this matter. Convalescent patients were provided with fresh eggs, which seems almost impossible, but which was from the best, that people who had chickens denied themselves that there might be an ample supply for the sick.

One wholesale grocer furnished a large tub of butter and a crate of eggs. Other grocers sent supplies. There were donations of canned vegetables, fruits and all kinds of jellies and pickles. Mrs. Gordon Reed assisted in the choice of these articles, and had charge of this branch of work. One man sent canned vegetables by the dozens and apple sauce, prepared all ready for the table.

There were gifts of grape fruit, apples, grapes and bananas for the nurses. Mrs. Edward Coykendall had charge of this work and never missed a day in visiting the hospital to ascertain the needs of the institution.

Twelve delicious pies were sent in, home made cake and cookies were always on hand in abundance. One lady contributed biscuits and potato salad for supper. Money was donated for ice cream for the patients and ice cream for the nurses was given twice by another donor.

Due to the beautiful spirit of self-sacrifice displayed by all the volunteers and their genial good-fellowship, the work ran along smoothly and in an harmonious fashion. It will always be remembered that the residents of Kingston had an emergency to meet and it will go down in the annals of Kingston history that they met it generously, unflinchingly and in a whole-hearted way.

Metz Once Roman Stronghold.  
The Romans called the city of Metz Divodurum, and as it was the junction point of their military roads, they fortified it. This was before the Christian era. The town blocked the attacks of the earlier Huns, and in the fifth century it passed into the hands of the Franks, when the first Christian house of worship was built. Charles the Bold was crowned in Metz, and Louis the Pious was buried there. In 843, it was the capital of the kingdom of Lothair.

## CHOOSE WOMANSHOME DEFENSE OFFICERS

Mrs. Hall Takes First Vice Chairmanship Vacated by Mrs. Van Eiten—Other Matters Discussed at Meeting.

At an important meeting of the executive board of the Woman's Branch of the Home Defense Committee of Ulster county, held at the office of the organization, the resignation of Mrs. John G. Van Eiten as first vice chairman, was received and accepted, and Mrs. C. R. Hall was chosen to fill the office left vacant by Mrs. Van Eiten's resignation.

Mrs. John D. Schoonmaker, chairman of the Woman's Home Defense, presided at the meeting, which was especially called, and the secretary, Mrs. J. M. Fowler, read a letter of appreciation and gratitude from Mrs. Dimock, of Denning, in response to a letter of condolence sent her by the Woman's Home Defense of Ulster county, of which she has been and is such an active and exceedingly efficient member.

A letter was also read from Mrs. John G. Van Eiten, tendering her resignation as first vice president of the organization. As Mrs. Schoonmaker, chairman of the body, will be absent from town for some four months, the arduous duties of chairman would devolve upon Mrs. Van Eiten, who felt that she had neither the strength nor time to devote to the work that the work demands. Her resignation was accepted with sincere regret and appreciation of her services to the present time, and it was voted to retain her as a member of the executive board.

Mrs. C. R. Hall, who has so efficiently and faithfully assisted Mrs. Schoonmaker in the operation of this body which has already accomplished so much splendid work, and who therefore is prepared to know the details of the various operations, was unanimously chosen to the office of first vice-president, the executive board pledging itself to provide necessary assistance for Mrs. Hall, in order to keep the office open daily, except Saturdays, from 9:30 a. m. to 4 p. m. On Saturday afternoons the office will be closed.

It is the object of the Woman's Home Defense to have its office open for war work every day during such hours as are most convenient to those wishing to use its various branches of work in city, county, state or nation, and the hours above stated have been found, from past experience to comply with that need. All persons, therefore, having occasion to use the Woman's Home Defense for information or actual work, are asked to keep in mind these hours, in order that they may not be disappointed in trying to communicate by telephone or personal call, with the office.

## ESOPUS COUNTESS FORFEITS ESTATE

Among the Estates of Wives of Aliens Taken Over By the Government Is That of Countess de Gasquet-James.

**THE NEEDLEWORK GUILD.**  
Invites Public to Cooperate In Much Needed Work.

The officers and directors of the Needlework Guild, of which Mrs. Barnum is the president, are now busy collecting their supply of garments, preparatory to their distribution during the winter when they will, judging from previous years' experience, be greatly needed by the sick and destitute of the city and vicinity. So many people have asked what constitutes membership in the Needlework Guild, that The Freeman has been asked to state that the giving of two new garments is all that is necessary to become such members, but this "dues," is what makes it possible for this organization to do the vast amount of good which it has accomplished in the past few years.

The statement was made in a recent local newspaper article, to the effect that our home charities were in danger of lack of proper support, because of the enthusiasm over the support of all war measures of a philanthropic nature. While the one need is imperative, so is the other, the home need, and if the local charities are sacrificed, suffering will follow. The one good deed should be done, and the other not left undone. The officers and directors of the Guild will be glad to take the name of any persons who will be willing to lend a hand in this good work. At which time the clothing will be assembled and distributed where then needed, will occur on Thursday afternoon at 2:30 o'clock at the chapel of St. James M. E. Church and the public is cordially and earnestly invited to attend this meeting and inspect the clothing, thus being able to judge for themselves of the efficiency and helpfulness of the organization.

**YANKS IN HARD FIGHTING.**  
As They Steadily Press Ahead on The Meuse.

By Telegram to The Freeman.  
With the American Army North of Verdun, Nov. 5 (1 p. m.)—Smashing their way forward in the fifth day of their offensive on the Meuse river the Americans have captured Beaumont, Cesse and La Neuville and have "mopped up" the forest of Jaulny.

The Americans have forced a crossing of the Meuse at two points, the engineers throwing pontoon bridges across the stream under a steady hail of bullets from German machine guns.

The Meuse was crossed near Drieulle and south of Clercy-Petit.

A new American line has been established in heavily wooded terrain on the heights east of the river. All of the west bank of the Meuse, as far north as Pouillon, is now in American hands.

(This represents an advance of six miles since yesterday morning and but the American lines only nine miles from Sedan.)  
The fighting is hard and spectacular and it has proved that the doughboys are superior to the best of Germany's seasoned troops.

**Wood Fuel Notes.**  
The New York State College of Forestry at Syracuse advises every woodlot owner to cut wood for sale as well as for his own personal use. The state fuel administrator has authorized local coal dealers to refuse coal to those having access to fuel woods and residents in small towns and villages near available tracts of standing timber should place orders now for their winter's cordwood.

The present high price of cordwood for fuel offers an unusual opportunity for woodlot owners to market their dead, down, inferior specimens to good advantage, and the farmers of central and northern New York are now realizing the value of a thrifty wood lot.

**Versatile John D. Got a Fair.**  
Monday afternoon Justice G. D. B. Hasbrouck, John D. Schoonmaker, William H. Van Slyke and Robert Rodio returned to town by tearing car from a hunting trip to Slide Mountain in the Catskills. They brought back in car a large black bear that weighed between 250 and 300 pounds. It is a beauty, being very fat and its fur is long and silky. The bear was shot by John D. Schoonmaker in the Red Hill section back of Slide Mountain and the trophy of the hunt was viewed by a number of people Monday afternoon on Fair street in front of the Kingston Club.

## WEINSTEIN LIKES FRENCH PEOPLE

Mr. and Mrs. A. Weinstein of No. 136 Newkirk avenue have received the following interesting letter from their son, Private Herman M. Weinstein, in France:

Somewhere in France, Oct. 15, 1918.  
Dear Parents:—Just a few lines to let you know that I am feeling fine, hoping to hear the same from you. I sent you so many letters and haven't received one from you. Every time the mail man passes by I run out to see if there is some mail for me. He says no. And if I don't soon get mail I will go crazy, so write often than you do. I received two letters from Louis which he sent to Fort Steen and they came to France to me. He says he is feeling fine, but you don't write often enough, and I also got a letter from H. Vogel and from uncle. He writes he is feeling good and not to forget some souvenirs when I come back. I suppose you get the paper and it looks good. I sent you the Stars and Stripes, which is one of the most popular papers over here and you can read it and when you get through give it to Harry Vogel so he can read it. Now I will tell you all about myself. I am a ward master and have a soft job and ain't doing much, and a little hope about the French people. They are kind to you. When I go to town you ought to see me with the children run along side of you and grab your hand and walk every place you go. I am going to town this Saturday and am going to have my picture taken and will send it home to you. And one more thing, are you getting my allotment money? If not, write and tell me. Write and tell me all about the town, how things are getting along. Is pa still peddling or not? The weather is getting a little colder now. How is it in the States, same way? Are any of the boys being drafted? Tell me who. And one more thing, don't worry about me as I am getting along fine, and if you worry you sure will get sick and I come back, because it won't take long before I will be home, so don't worry even about Lewis. He is fine. I suppose I don't have to tell you that Germany is begging for peace now. She thought she could run the whole world and the good old U. S., but she was mistaken. Write me all the news as I would like to know, as I can't write very much because I am very busy just now, so I will close with lots of love to all of you.

Don't forget to answer.  
From your son,  
PRIV. HERMAN M. WEINSTEIN,  
Base Hospital 62, American Expeditionary Forces, A. P. O. 750, France.

## STILL BLIND.

It would appear that even in the midst of adversity the Germans are still blinded by a prodigious self-conceit. This is indicated in a number of ways and notably in the names chosen for German merchantmen now in course of construction. In an article in the Nineteenth Century and After we read: "The Hamburg-America Line is building the Bismarck, 56,000 tons, which will be the largest liner in the world; the Tirpitz, a turbine steamer of 32,000 tons. The North German Lloyd placed orders at Danzig for two steamers each of 32,000 tons, but only one of these is available; the Munchon and the Zeppelin are each 15,000 tons, and twelve other vessels of 12,000 tons are already in various stages of completion."

When the world is at peace the Bismarck might be endured without protest in the ports of the nations now at war with Germany, although it is known that the Prussian minister of that name was hard, cruel and utterly without conscience or moral principle. But what sort of a reception would he receive in a British port by a ship named after the air-monster that dropped bombs on the women and children of peaceful little English towns? What sort of a reception would be received in an American port by the Tirpitz, named after the author of the policy of piracy and murder that sent the Lusitania's women and children to the bottom of the Atlantic and was responsible for a thousand other atrocities? The Germans ought to be awakened by this time from their mad and wicked dream if anything can really awaken them, but it would appear that they do not yet know what the world thinks of them and their savagery during the past four years.

## THE SUNS OF NIGHT.

In the clear cold evenings of autumn and early winter, when the overpowering moon is absent, several constellations which are at their best at this time of year seem to flame out with a brilliance they never had before. At an early hour the Great Bear, in the course of its revolution round the relatively stationary north star, appears to be standing on its tail and almost touching the northern horizon. This "rod of the north," as it was called by the Chinese thirty centuries ago, which never sinks beneath the horizon, is the most conspicuous cluster of stars in that quarter but not the most brilliant visible. Opposite it, in the southeast, blazes Orion, the brightest and most beautiful of all the constellations. To the right of this is the star Aldebaran, the flaming right eye of the Bull, and to the left is Sirius, magnificent Sirius, the most wonderful of the distant suns on view by night.

According to the astronomers this brightest star of the first magnitude is 143,000 times as far from us as the sun of our own planetary system, and to traverse the distance from Sirius to the earth light requires twenty-two years, travelling at the rate of 186,000 miles per second. This means that the bright light we look at is rather the Sirius of 1896, the rays of light reaching us having been sent forth from the vast ocean of fire on that date. The stupendous distances of the stars are relatively small, however, to the dull eyes of the ordinary man, but they can not fail to appeal to the scientific mind.

The late life of the old hero who died when in August 1914, is a story which is likely to be disappointed in the future that comes to the present.

The Kaiser told Ambassador Gortals that he would send no more troops from America. The present is no time to stand any nonsense from Germany, if we may employ means with reference to treacherous negotiations before the victory.

A bank that an Atlanta has been named after from the United States of America, Belgium, Italy, France

and England. The somewhat more euphonious "Fable" would have served the purpose equally well and looked more like a genuine name. "Ally"—with the accent transferred to the first syllable—might have been better still.

The intending world-conquerors will not learn their lesson until Germany is occupied by an Allied army with orders to stay there until every condition of the peace has been forced upon the shifty officials of that country.

Keep the Huns on the run till the Rhino is their line.

## LITTLE LAUGHS.

Mrs. Hatterston—"Shopping!"  
Mrs. Catterston—"Oh, no! I went out to buy something I wanted!"  
—Life.

Sweetie Girl—"My father says there is a movement in 1901—"  
Alarmed Young Man—"Oh, then I had better go!"—Baltimore American.

"You haven't had much to say lately," commented the old friend. "True," replied Senator Borgum. "But you must give me credit for one thing—I realized the fact and kept still."—Washington Star.

"How is it you couldn't sell that damn dictionary? Did you tell her the dictionary had forty thousand words?" "Yes, but she had more words than that, and she used 'em all telling me she didn't want it."—Louisville Courier-Journal.

Little Leo—"Pop, do you know that the earth is gradually getting colder and colder?" Mr. Corrigan—"I do not, but I do know that that overcoat has got to do ye more winter, me son, gittin' hints to the contrary, notwithstanding."—Buffalo Express.

The Same Straw.  
A commercial traveler, on leaving a certain hotel, said to the proprietor: "Pardon me, but with what material do you stuff the beds in your establishment?"

"Why," said the landlord proudly, "with the best straw to be found in the whole country!"

"That," returned the traveler, "is very interesting. I now know whence the straw came that broke the camel's back."—London Tit-Bits.

Caution.  
Mr. Talkerton on the eve of a business trip told his wife a choice bit of scandal concerning one of their neighbors. "And remember," he admonished her, "while I am away that story is to be kept strictly between us two."

"Oh, certainly," assented his wife. "But you must remember while you are away there'll be a lot of people between us two."—Exchange.

The Hun's Need.  
Willard Straight, the young New York barber who has given an armory to Cornell, said recently in Ithaca:

"I see that the Huns are starting a new war loan. Well, they will need it."  
He added with a grin chuckle.

"Yes, when Uncle Sam's boys begin to chase them back to Berlin, it will take all the money the Hun can raise for running expenses."—Exchange.

A Criticism.  
William Dean Howells, the famous author, does not like the movie. He thinks their technical side, the camera man's side, is wonderful, but he has no time for their literary or scenario side.

As Mr. Howells emerged from a movie theater in Boston the other day he was heard to say, in his rich voice, with his gentle chuckle:

"Life would be amusing if it were not for its amusements."—Exchange.

STOP OFF IN FRANCE.  
But Negro Soldiers Are on Way to Berlin.

A short conversation was overheard at the West Shore station as a trainload of colored soldiers passed through. An elderly man said to one of the soldiers: "Where are you going, boys, to France?" and the ducky lad, "No sah, we're going to Berlin, but we might stop off at France on our way back." Which led to the company of these fine A. I. soldiers of the United States Army. We're passing down the line. What a man on the station platform.

Was trying to find some sign of where these boys were going. Who said, "I leave and true so he said to a ducky soldier. Who was waving the Red, White and Blue."

"My boy, where are you going?" "I'm on my way to France." And the ducky boy, looking over from his head to the head of his party.

Then his big eyes opened wide. As he looked at him and said: "Are you on your way to France?" "I'm on my way to Berlin." And the ducky boy, looking over from his head to the head of his party.

### THAT INDIAN BAN.

Veritas Deplores Latest Enroachment of the Paleface.

To the Editor of the Kingston Daily Freeman:

Dear Sir:—I was very much startled last evening on casting my eyes over the headlines of your estimable paper to read one entitled "Indians Forbidden on City Streets." I feel that I must raise my voice in protest for those who are unable to speak for themselves. There may be some justification for the action of the Board of Public Works for the Indian has maintained a threatening attitude in our city for a long time. Some may fear that he will strike some time, others know he was wooden. It is true that if we do not progress we regress; the Indian alone has remained stationary. At the same time I feel that the enforcement of the new rule will interfere with the development of literature and art. Instead of beholding well Red Men he will see nothing but sickly pale-faces, especially among those now convalescing from grip. The board if unable to provide any other kind might at least have adopted the rule with a mental reservation. The long winter evenings will soon be here and instead of being cheered by a view of an Indian in the distance, the chilled traveler will be greeted by a frozen vacuum. The Indian has been to him the symbol of warmth and cheeriness, for where there is smoke there is fire; hereafter he will not be able to look forward for this sign of comfort and will declare the infamous action for the board as an unwarranted interference with his rights. However it is needless to protest, for like a cigar made of green leaves, the members of the board cannot be "fired."

## Close Harmony Under Fire

THE men had finished supper, and sat around in listless groups. Even when a shell went zooming overhead they showed no interest. They were fed up on this war.

A little gray car chugged up the hill to their camp. Two war work men stepped out, carrying between them a curious long box.

"What you got there?" asked the doughboys.

"An organ."

"Well, can you beat that!"

"We've come to give you a little entertainment," said one man. "All right?"

"You bet it's all right," answered a young officer. "This gang hasn't seen a soul from the outside world for weeks. Go as far as you like."

And they did.

They sang the new songs, just over from Broadway. In a minute the whole camp was singing them. Then they sang the verse of a good old close-harmony melody, and the crowd roared the chorus.

"But haven't you men got anybody who can sing?" asked one of the entertainers. The response was immediate and overwhelming.

"Sure we have! Oh, you Shorty! Come on, Happy! Give 'em that 'Perfect Day,' Bill!"

And then things really started.

"Would you know it's the same gang?" asked the American officers.

For two hours it lasted, and then the visitors packed up their organ.

"Come again soon and send more of your men," said the officer. "We can't get too much of it!"

"So long!" yelled the men. "Good luck! Come again!"

Wherever there are American soldiers overseas, these organizations are carrying entertainment to them. Movies, concerts, lectures, local talent, even full-fledged comedies with a truck for the stage, from the simplest sing-songs in the woods to the most elaborate program, in city theatres, everywhere free entertainment is provided to meet conditions.

### Why you should give more than you ever gave before

It will take \$350,000 to fill the Ulster County War Chest, and provide for the comfort and happiness of our soldiers and sailors for one year.

By giving to all organizations at once, the cost and effort of several additional campaigns is saved.

Unless Ulster County gives more than ever before, our soldiers and sailors may not enjoy during 1919 their

2500 Libraries supplying 5,000,000 books  
 85 Hostess Houses  
 15,000 Big-brother "secretaries"  
 Millions of dollars of home comforts

When you give to your utmost, you make sure that every fighter has the cheer and comfort of the War Organizations every step of the way from home from the front and back again. You provide with a church, a theatre, a cheerful home, a store, a school, a club, and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs. Now give to maintain their morale for the War and after.

 U. S. E. S. License Permit No. 1.

**History of the Town of Marlborough**

The land embraced in the Town of Marlborough was purchased by Governor Thomas Dongan of the Indians in 1682. It was settled in 1694, being among the oldest settlements in the State. It has some of the oldest church societies in the county, and is one of the original towns.

The material for the History of Marlborough has been gathered with great care and labor from ancient, public and private records and from traditions which have been traced and found correct.

The original documents entire to a great extent are published.

The Town took an active part in the Revolution: it furnished many officers and men whose names and services are given. Also the Proceedings of the Committee of Safety, and the examinations, trials and convictions of disloyal persons.

The history gives the ancient patents and land grants and their description and boundaries, ancient maps of great importance, all town officers from the first organization, much of the history of the Towns of Newburgh and Plattekill while they formed a part of Marlborough. The names of all voters are given at certain different periods. Also important matters in connection with the Civil War; the names of all the officers and men who went from the town as soldiers.

The history is as authentic as is possible to make it, and contains facts, records and customs never known or heard of by the present generation.

### SINDERS FIRED AN ENGINE.

A Misadventured Attempt to Sidestep a Nickname.

In the occasionally "funny" columns of some newspapers, including some in Boston and Chicago appears a letter from Charles Norton, showing that you can never tell where a nickname will light. Norton, now dead, will no doubt be recalled by many old timers in this vicinity as he was foreman of The Freeman composing room at the time of these events. Like Mesereau is a Freeman employee today.

The letter from "Norty" follows: Sir:—Many years ago in Kingston, N. Y., occurred the wedding of Nathan Wood of Kingston and Isabelle Cole of Pine Hill. (Pine Hill is where you got off when you are visiting the Rip Van Winkle locality). Now I know you don't think there is much to enthuse about Wood and Cole, but—like Mesereau was holding down the city desk on The Daily Freeman, and when the firm christened their son, Sinclair Ashley Wood, (like thought he was a regular wit, and had the make-up slip a two line joker in the christening notice, to the effect that Ike was laying odds the boy would never be called by any other name than "Ashes." But the kids in the neighborhood thought "Ashes" was too easy, so they used the "Sin" of Sinclair, and made a nickname "Sinders," which stuck. And when the boy grew up, he got himself a job firing a locomotive on the U. & D. railroad. But that night, all of the story. Three or four years after Mesereau's attempt as a prophet the Wood family had to choose a name for a daughter, and the name they finally selected was the supposedly fireproof one, Caroline. Mesereau passed it up as hopeless, not thinking of Brother Bill Harlow. Brother Bill set slug four, and was skinning the hook for "phat" when he ran across the item about Wood's new girl. Brother Bill studied it a moment, then he sneaked over to his alley and set the item. Then he gave the ring-man a tip to watch out for the revise, and the dirty work was done. When the sheet went out that night the girl's name was spelled "Caroline." In later years she went to Eastman's Business College in Poughkeepsie, and when her course was finished she became a stenog for the Standard Oil Co. —NORTY.

### CONTINUE MILLER'S ORCHESTRA

Curtis R. Shurter to Conduct It in Own Name.

Miller's Orchestra which made such a name for itself in and about Kingston will continue in existence under a new name although its former leader, popular Steve Miller, died recently.

Curtis R. Shurter, who was the violinist in the orchestra and who organized it some years ago with Mr. Miller has decided after repeated requests from people all over the county, to continue the organization. He has assumed leadership and will change the name to Shurter's Orchestra. William V. Diamond, will continue as trap drummer and Miss Mamie Snyder will play the piano. Contracts which were made by Mr. Miller will be fulfilled by Shurter's Orchestra, such as Van Steenberg's dancing class and the dances at Stone Ridge. The orchestra will begin rehearsing immediately and will appear in public shortly after the present ban on public entertainments is lifted. The new organization has the well wishes and hearty support of its multitude of friends and it hopes to uphold the good name made by the old orchestra.

### Gridley Has Recovered.

Walter Gridley of this city fell on the stage of the Lexington theater in New York two weeks ago while playing the part of Messala in Ben Hur. He was removed to the hospital where it was found he was a victim of influenza. He has now recovered and will go on tour with "The Girl Behind the Gun" this month.

### Has Big Potato Crop.

**What the Government Says About "Beacon" Blankets**

Question: "Are they as warm as wool?" The reply may best be taken from the report of the U. S. Department of Commerce, Bureau of Standards, Washington, D. C., made after exacting tests of "BEACON" BLANKETS. We do not wish to convey the impression that "Beacon" Blankets are more satisfactory than wool under all circumstances, but they are much warmer than wool, weight for weight, as shown by the Government report. That a 2 1/2 lb. Blanket tests 30 per cent warmer than the 5 lb. wool blankets.

## UNDERNEATH THE CITY HALL DOME

The work of laying the block pavement on one side of Hushbuck avenue hill has been completed by the board of public works under the supervision of Superintendent W. Scott Van Keuren, and the hill was thrown open to traffic Monday.

Owing to lack of men and other work that had to be done it will be impossible to complete the work of laying the pavement on the other side of the street, but that will be done early next season. This stone block pavement on the hill is one of the best jobs that has been done by the street department. Many believe that it is better going than the Broadway brick pavement.

It was reported that it had been arranged to send twenty-five department of justice deputies to watch the election here.

It is also said that the police department received a telegram which had been sent to every police department in the state by Mr. Elkus, who has been managing "Al" Smith's campaign, stating that any crookedness would be severely dealt with.

Tammany and Mr. Elkus evidently know Kingston only as a place where there are so many voters and are not aware that the city has always been noted for the orderly manner in which elections were conducted, and for the fact that crookedness such as is said to exist in New York city is not known here.

Today being election day it was very quiet at the city hall and the majority of the offices were closed for the day.

Vincent J. Lynch of this city was arrested by Detective Otto Lange of the West Shore Monday on a charge of train riding. That was the only arrest made Monday in the city.

BLOOMINGTON.

Bloomington, Nov. 4—Mr. and Mrs. Peter Davis, Mr. and Mrs. Floyd Davis and James Davis of Lewistown, Pa., were in this place on Sunday and spent the day with Mrs. Esther Davis.

Miss Christina E. Hoy of Kingston spent Sunday with her mother, who is ill, and sister, Miss Alice.

Hess.

John Gue and family of Creek Locks expect to move to Kingston.

The Ladies' Aid Society will hold their regular monthly meeting on Wednesday afternoon of this week at the home of Mrs. Robert Taylor at 2:30 o'clock. The ladies are all invited to attend.

Mr. and Mrs. Ralph LeFever of Rosendale visited his brother and wife, Mr. and Mrs. George L. LeFever, on Sunday.

Mr. and Mrs. William Trautman of Ossining were called to this place on Saturday to attend the funeral of her father, William Bach, who died very suddenly early Friday morning. The neighbors and friends extend to the bereaved widow, who is quite ill at this writing, and two sons and daughter and relatives their heartfelt sympathy in this, their sad hours of trouble.

Howard Van Keuren with other friends of Tilton, called in this place on Sunday.

We are sorry to hear of the morning of Willie Dobbins and family and also Mr. and Mrs. William Quinn, as they expect to move to Kingston very soon, and they will be greatly missed by all their neighbors and friends.

Mrs. Alice Smith of Whiteport spent Tuesday with Mrs. Charles Dickard.

Miss Beulah Smith, who has been home from her position on account of being sick for a couple of weeks, is able to be out again.

The Mother's Touch.

It is an old belief that the body of a murdered person will bleed on being touched by the guilty one. This "old belief" of guilt was once admitted in the Scottish criminal courts. If you happen to possess a copy of Sir Walter Scott's "Mistress of the Scotch Border," you'll find an interesting story in this connection.

# ULSTER CO. WAR CHEST DRIVE

## NOVEMBER 11 TO 18 ONE DRIVE FOR ONE YEAR

### \$200,000 OR MORE MUST BE PLEDGED

It has been carefully ascertained that the minimum possible demands which will be made upon the County in the form of subscriptions to general and special funds for war and welfare needs during the twelve months commencing December 1st, excluding the Red Cross, will be \$200,000.

The National Agencies Included Are The

Young Men's Christian Association  
Young Women's Christian Association  
National Catholic War Council, (K. of C.)  
Jewish Welfare Board  
War Camp Community Service  
American Library Association  
Salvation Army

The Ulster County War Chest Association, Inc., is incorporated, and the Board of Directors will have charge of the disbursement of the fund.

The Board of Directors named in the certificate of incorporation to act until the first annual meeting are

Hon. G. D. B. Hasbrouck, Edward Coykendall, John D. Schoonmaker, Hon. Palmer Canfield, Jr., Frank R. Powley, Martin Cantine, of Saugerties, John E. Mahar, Ralph R. Whitehead, of Woodstock, Joseph M. Herbert, Dwight Devine, of Ellenville, Sam Bernstein, Harcourt Pratt, of Highland, Hon. Frank J. LeFevre, of New Paltz, Harry P. Dodge, William O. Schwarzwaelder, of Chichester, Robert M. Rownd of Milton, and B. S. Galloway, of Wallkill.

Any person who pledges payment of one dollar per month for one year becomes a member entitled to vote for the election of Directors at the annual meeting.

Every person will be urged to take as many memberships as their capacity to give for the entire year will permit them. A person who subscribes ten dollars per month for a year takes ten memberships. A schedule giving a suggestive minimum basis for subscriptions will be published later.

A War Chest means but one money raising campaign in the County during the year for everything except the Red Cross. Everyone will be expected to subscribe to the very limit this once for all the year.

Positions and Also Carry Out Air

Raid With 145 Planes.

By Telegraph to The Freeman.

Washington, Nov. 5.—The American First Army continues to gain, despite stiffening resistance and the throwing in of fresh troops by the enemy. General Pershing reported today in his communique for November 4. The Americans have occupied La Neuville and are now on the heights overlooking Beaumont.

The communique also tells of an air raid carried out on a gigantic scale against Montmedy, an important railway center. One hundred pursuit and forty-five bombing planes took part in this operation and more than five tons of bombs were dropped. Thirty enemy planes were destroyed and three balloons brought down, only seven of the American machines failing to return.
